Now

Mountain & Fauna Lover

This is my Personal Brand that I created to share online my passion for the mountains and the animals that live there. It led me to establish collaborations with important brands in the sector such as Swarovski Optik or Ollin

Volunteering in Brazil - Don Mazza Merit College

I have actively participated in volunteer projects organized by Collegio Don Mazza, with particular attention to education and social support initiatives. During this experience, I collaborated with projects aimed at improving the socio-educational conditions of children and adolescents in disadvantaged areas, including after-school activities, creative and sports workshops, and literacy programs. Furthermore, I had the opportunity to contribute to social inclusion and the promotion of the psycho-physical well-being of young people, working in an intercultural exchange context, which enriched my relational and organizational skills. This experience allowed me to develop important soft skills such as teamwork, leadership and problem solving skills.

Interests

Business

Understand how it works and discover all the secrets behind its success

Personal Development

Insights into human psychology, marketing and business

Sports

I have practiced many sports and I still don't limit myself to practicing just one.
